

MIT Academy of Engineering (An Autonomous Institute)	CA Activity No-1(20 Marks)	
	ACADEMIC YEAR	2025-26
Alandi (D), Pune – 412105	SEM / TRI	II
DEPARTMENT OF E&TC ENGG.	CLASS & DIVISION / BLOCK	FY B.Tech-ALL

ACTIVITY NAME	NASSCOMM CERTIFICATION		
COURSE	CREATIVE TECHNOLOGIES (2301183)	Lab Activity No.	02 (One)
COURSE INSTRUCTORS	VINAYAK KULKARNI & TEAM	DATE	25-01-2026

STUDENT NAME	Manaudnyi Ramteke	PRN	202501110172
TRACK	BCT-2	TRACK TEACHER	SANDEEP SHIRVALE

Que. No.	Question Description/ Design Problem Statement	Marks	CO No.	BT Level
Q1	Please read assignment statement below , the students Online Industrial Certification Course Digital 101-30 Hours (GOI, AICTE, NASSCOMM, NSDC)submit the Reflection report in prescribed formaty (pdf) on Moodle	20	CO3	L2, L3

(Remark: Course Instructor to add assessment rubrics for each assignment)

RUBRICS:

Criteria	CO Addressed	Completion of Course (20 Marks)	Incompletion of Course(0 Marks)
Activity Completion & Reliction Report	CO3	Completion of all modules of course Digital 101-30 Hours, produced course completion report (15 Marks)	- Student not registered to course - Not completed the course - Not completed all course activities
		Produced Report and evaluated by Track Teacher (05 Marks)	Simply Not completed the course , without showing the appropriate work, which is to be graded, will also be awarded a score of "0."

ASSESSMENT:

--	--	--	--

Date	Marks (20)	Sign of Track Teacher	Name of Track
------	------------	--------------------------	---------------

Reflection Report on Online AI courses

(Write one page report on course wise learning and your Understanding through these courses in your own language)

I successfully completed the *Digital 101 – 30 Hours Online Certification Course* offered through FutureSkills Prime, supported by Government of India, AICTE, NASSCOM, and NSDC. This course provided me with a strong foundation in emerging digital technologies and their real-world applications.

Throughout the course, I learned about important concepts such as Artificial Intelligence, Machine Learning, Data Analytics, Cloud Computing, Cybersecurity, and Digital Transformation. Each module was well-structured and helped me understand how these technologies are shaping modern industries and creating new career opportunities.

One of the most valuable learnings from this course was understanding how AI and data-driven systems are used in everyday applications such as recommendation systems, automation, and smart devices. I also gained insight into how businesses use digital technologies to improve efficiency, decision-making, and customer experience.

The course also enhanced my awareness of cybersecurity practices and the importance of protecting digital information in today's connected world. Additionally, I learned about cloud platforms and how they enable scalable and flexible computing solutions.

Completing all modules and assessments improved my self-learning ability and time management skills. The certification process, including mock and final assessments, helped me evaluate my understanding and encouraged me to perform better.

Overall, this course has increased my interest in emerging technologies and motivated me to explore advanced topics in Artificial Intelligence and related fields. It has also helped me understand the practical importance of digital skills in engineering and future careers.
